

Coollaboratory compatibility list

Version 1.00 English

The Coollaboratory Liquid Pro heat conduction paste was developed for the usage in PC systems and is recommended for the handling with cooler made of copper or with plated contact areas like nickel and other protective layer without aluminum. The Coollaboratory Liquid MetalPad is suitable very good for nearly all current cooler.

	Fits very well.
	Fits good.
	Limited recommended.
	Unsuitable.
	n/a.
