DECLARATION OF CONFORMITY

At the issue from 13th February 2003, the official Journal of the European Union has waived the following:

GUIDELINE 2002/95/EG OF THE EUROPEAN PARLAMENT AND THE COUNCIL from 27th Januar 2003
For limitation of application of particular hazardous substances in electrical equipment.

(RoHS „Restriction of Hazardous Substances“)

Article 4 (1)

„As from the 1. July 2006, the member states make sure, that all introduced electrical equipment **don't contained lead, mercury, cadmium, sexavalent chrome, polybrominated biphenyl (PBB) and polybrominated diphenylether (PBDE). ...**”

In conjunction with the adjudication of the European Commission from 18th August 2005 for the change of the addition at the guideline 2002/95/EG from the European Parliament and the Council for the purpose of the agreement for concentration limits of particular hazardous substances in electrical equipment. Article 1 (Official Journal of the European Union from 19.08.2005) (2005/618/EG)

The Guideline 2002/95/EG will be released with the „Law about putting on to the open market, the retraction and the environment-friendly disposal of electrical equipment (electrical equipment law – ElektroG) as from 16th March 2005, released at BGBl 2005, Part I, Nr17, Page 762ff, implemented in national law.

Here: Paragraph 2, § 5 (1) substance prohibition .

Coollaboratory confirmed the conformity (GUIDELINE 2002/95/EG) of the product „Coollaboratory Liquid Pro“, their amendment as well as the performed laws.
